 **BLUWAVS™**

7.1 Discrete HD Audio Headphones

Introducing BLUWAVS™

THE WORLD'S FIRST 7.1 DISCRETE HD HEADPHONES

BLUWAVS produce for the first time, true HDMI 7.1 HD Audio with 10 discrete speakers.

THE ULTIMATE PRIVATE MOVIE EXPERIENCE

Only BLUWAVS patent-pending technology allows you to privately enjoy your favorite Blu-ray movies with 7.1 DTS-HD Master Audio™, Dolby® TrueHD or LPCM HD Audio quality.

ENJOY MOVIES, MUSIC, TV & GAMES

BLUWAVS dramatically enhances your entertainment experience with immersive, studio quality surround sound. Enjoy all of your movies, music, TV and games at their absolute highest quality and full volume without disturbing your family or neighbors.

PERSONALIZE YOUR ENTERTAINMENT

Customize your listening preferences with the BLUWAVS Blender. Select and “mix” your own preferred individual speaker volumes and boost the front bass EQ levels.

LIVE THE HIGH LIFE IN HIGH DEF

- Delivers 7.1 channels of true HDMI High Definition Audio.
- Incorporates ten individual speakers including two vibration subwoofer speakers.
- Remote control selectable (3) HDMI, (2) SPDIF and (2) Analog audio/video devices.
- Compatible with Blu-ray, DVD, CD, SACD, PC, iPhone, Android, Game Consoles and more.

Standard 2 Channel Stereo Headphones

Standard Stereo headphones are limited to only 2 channels of down-mixed lower quality audio.

7.1 Channel BLUWAVS Headphones

BLUWAVS deliver true 7.1 HD Surround Sound.

Immerse Yourself in True 7.1 HD Surround!

EVERYTHING JUST SOUNDS BETTER

BLUWAVS will forever change the way you experience movies, music, games and TV.

Unlike stereo headphones which “down mixes” the original 7.1 HD Audio into two lower quality audio channels, BLUWAVS delivers the original bit-for-bit identical, studio master 7.1 channels of HD Audio.

With up to 27Mbps audio bit rates, BLUWAVS offer audio quality that is up to 18 times higher quality than stereo.

BLUWAVS makes everything sound richer and more immersive. Enjoy surround movies, music, games and TV shows. With a 7.1 HD audio bit rate of 27Mbps, BLUWAVS offer audio quality that is up to 18 times higher quality than stereo.

BLUWAVS MUSIC STORE - 680,000+ downloadable high-res stereo FLAC/ALAC/WAV and SACD HD Surround albums.

EXPERIENCE BLUWAVS TODAY

Contact your Mozaex dealer for a personal demonstration or visit www.bluwavs.com for more information.
